

CUBA WILL NOT BE NEXT!

STOP U.S. INTERVENTION! SUPPORT CUBA'S SOVEREIGNTY!

In recent months, U.S. foreign policy toward Cuba has become more aggressive with serious indications that the Bush regime's war efforts against Iraq will be redirected at our struggling neighbors in Cuba. There has been a flurry of dangerous misinformation, half-truths, and out-right lies being used to justify more aggressive measures against Cuba. Recent measures to tighten travel restrictions are not only an unjust indictment of the Cuban people but also an infringement on our civil and human rights. Join our movement to:

- ❖ End the Blockade!
- ❖ Stop all forms of economic, military, and political intervention in Cuba!
- ❖ Repeal the Helms-Burton Act and Normalize relations with our neighbors in Cuba!
- ❖ Lift all travel restrictions!
- ❖ Free the five anti-terrorist Cubans unjustly held in U.S. Prisons!
- ❖ Take Cuba off the Terrorist List!

End the attacks and No War on Cuba!

¡CUBA NO SERÁ PRÓXIMA!

DETENGA LA INTERVENCIÓN ESTADOUNIDENSE! APOYE LA SOBERANÍA DE CUBA!

En los últimos meses la política externa de los Estados Unidos hacia Cuba ha sido más agresiva con serias indicaciones que los esfuerzos bélicos del régimen de Bush en contra de Irak, serán redirigidos a nuestros vecinos de Cuba. Ha habido una enorme cantidad de información errónea, verdades a medias, y abiertas mentiras que han sido utilizadas para justificar medidas más agresivas hacia Cuba. Medidas recientes que hacen más severas las restricciones de viaje no son solo un injusto castigo a los Cubanos sino también, una violación de nuestros derechos civiles y humanos. Únase a nuestro movimiento para:

- ❖ Acabar con el bloqueo
- ❖ Parar todas la formas de intervención económica, militar y política en Cuba
- ❖ Revocar el acto de Helms-Burton y normalizar las relaciones
- ❖ Eliminar las restricciones de viaje
- ❖ Liberar a los cinco anti-terroristas cubanos detenidos injustamente en prisiones de EEUU
- ❖ Quitar a Cuba de la lista del los llamados países terroristas
